MEI Adds Two New Continuing Education Courses for Nurses

Madison, Wisconsin—The [nonprofit Medical Education Institute \(MEI\)](#) has added two new continuing education courses for nurses to its [continuing education website](#). Each hour-long course is available for \$10 for 1 credit.

[Healthcare Professionalism, Ethics, and Empathy](#) demonstrates how important it is to maintain appropriate professional behavior when working with patients. The course covers healthcare technical and ethical standards, patient/provider relationships and boundaries, the dialysis patient's point-of-view to develop interpersonal communication skills, and much more.

[Include Dialysis Patients in your Facility Culture of Safety](#) focuses on effective systems and teamwork--that includes patients--to accomplish the mutual goal of safe, high-quality patient care. When something goes wrong, the focus is on *what*, rather than *who*, is the problem, with the intent to bring process failures and system issues to light and solve them in a non-biased, non-threatening way.

MEI is approved by the California Board of Registered Nursing, Provider Number CEP-15591.

About MEI: Founded in 1993, MEI is a national 501(c)(3) public charity dedicated to helping people with chronic disease learn to manage and improve their health. MEI fulfills its mission by conducting research, developing evidence-based education for consumers and health professionals, and advocating for patient-centered policies. MEI is funded through licensing of the [KDQOL-Complete](#) service, sales of the 6th edition [Core Curriculum for the Dialysis Technician](#) book and slides, sponsorships for our [Life Options](#), [Kidney School](#), and [Home Dialysis Central](#) websites, fee-for-service contracts, and donations. Contact us at (608) 833-8033 or make a tax-deductible contribution at www.mei.org.
