## **MEI Releases Instructor Slides for *Core Curriculum for the Dialysis Technician, 6<sup>th</sup> Edition***

Madison, Wisconsin—The nonprofit Medical Education Institute (MEI) has created 28 colorful decks covering all nine modules of the 6<sup>th</sup> edition *Core Curriculum*. The fully illustrated slides—containing many new figures not available in the book—offer detailed speaker notes, and are the perfect complement to any dialysis technician training curriculum or review course. Each deck has about 30 slides, for a 60-minute class with discussion.

*“We wanted to create a teaching aid that would help bring the Core Curriculum to life for students and instructors, and focus on what matters most to improve patient care.”* said MEI Executive Director, Dori Schatell, MS. *“This new resource is the only one that can closely follow the Core Curriculum content and illustrations—which are copyrighted to MEI—to make classroom teaching easier and more effective.”*

**The slides can be used only through Google Drive, and require a Gmail account.** The complete set, for \$599, can be previewed and purchased for use by individual trainers at <https://store.mei.org/training-slide-decks-for-the-core-curriculum-for-the-dialysis-technician-6th-edition/>. Contact MEI at (608) 833-8033 to request a corporate quote for multiple trainers and/or clinic locations.

**About MEI:** Founded in 1993, MEI is a national 501(c)(3) public charity dedicated to helping people with chronic diseases learn to manage and improve their health. MEI fulfills its mission by conducting research, developing evidence-based education for consumers and health professionals, and advocating for patient-centered policies. MEI is funded through corporate sponsorships, fee-for-service contracts, product sales, and donations. Make a tax-deductible contribution at [www.mei.org](http://www.mei.org).
